PROFESSIONAL EXPERIENCE

Mar 2024 - Present

FRONTEND DEVELOPER - HORA GAMES

Building responsive web applications using React.js, Astro, and modern styling frameworks. Worked on diverse project types including standard web development, web-based gaming, and mobile applications with React Native.

Open Gaming - Developed a Telegram-based app that allows daily points collection through tasks, friend additions, and a chat feature, built entirely in React.js. Developing a game called OG GO, inspired by Monopoly GO, where players roll dice, earn/lose cash, play mini-games, and progress through cities. The app and the game are fully integrated, allowing users to earn rewards through both gameplay and app activities. App/Game Telegram Link

StepHero - Fitness Tracking Mobile App (React Native) Developed iOS/Android fitness application tracking real-time and historical user activity including steps, distance, and floors climbed. Implemented gamification system with daily tasks and personalized goals. Built interactive playground feature with smooth animations (Reanimated) where users complete journey-based challenges and unlock rewards through real-world movement.

Jan 2024 - Feb 2024

MUSICSHOP E-COMMERCE PROJECT

Musicshop - Built full-stack e-commerce platform for musical instruments using Next.js, TypeScript, Tailwind CSS, MongoDB, and AWS S3. Developed complete product management system with admin dashboard, user authentication, shopping cart, and payment integration. Implemented image upload and storage with AWS S3, database design, and RESTful API endpoints. Visit musicshop.
